WORK EXPERIENCE

Associate

May 2025 - Present

Bain and Company

Commercial Analytics & Consulting

- Delivered commercial analytics and business insights across multiple global consulting engagements, supporting decision-making for cross-functional client teams.
- Built analytical models and Excel-based solutions to evaluate commercial performance, identify trends, and support strategic recommendations.
- Translated ambiguous business problems into structured analytical approaches and communicated findings to senior stakeholders.
- Collaborated with consulting teams to improve reporting efficiency and streamline recurring analytical workflows.

AI Product Prototyping

- Collaborated with engineers and consulting teams to test AI-assisted workflows and refine product functionality based on business requirements.
- Developed and refined LLM prompts using GPT and Claude to improve analytical outputs and automate portions of financial analysis.
- Evaluated AI-generated results, incorporated stakeholder feedback, and iteratively improved prompt quality and business relevance.
- Worked closely with cross-functional teammates responsible for engineering implementation and data integration during product development
